

How to Make a Google Slide

First Things First

The Materials You Need Are:

Computer/Chromebook/Laptop/Mobile device

Internet

Google Account

Go to

<https://docs.google.com/presentation>

Click the pencil icon in the corner to create new document.

You can change the background color and picture by clicking the background button.

You can do gradient colors!

Solid colors!

And pictures/photos!

Last but not least gifs!

Click the Layout button next to the background button to change the layout!

This type.

This.

Also this one.

Etc.

Now for theme!

This is choosing a certain background for
all slides.

White, Black, Patterns, etc.

You can
customize your
slides in all
kinds of ways!

B
It's fun to create slides!

A

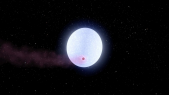

To add text
boxes click on
the text box

button!

Click and drag where you want
your text box!

The highlighted boxes are the
added ones!

You can do the
same thing just
with pictures!

Do the same by clicking the
button with the box with a
landscape in it.

And you can add gifs!

Enjoy!!!

Have fun making slides!!!

See ya later guys! Bye!
