

# How to Make a Homemade Birthday Card

By Sydney Kaye

*Yes, Virginia...*

# Introduction

You know when it is someone's birthday and you go to the closet or wherever your cards are stored to get a birthday card but there are not any left or you don't own any? Well if you know what I am talking about then you need to know how to make a homemade Birthday card so I am going to teach you how to make a fantastic birthday card.

# Supplies:

\*Glue

\*Paper

\*Stickers

\*Ribbon

\*Ink and stamps

\*Pencil or pen

\*Scissors

# Making The Card

First you have to take colored or plain paper for the main part of the card. After you have the paper fold it in half. After you fold it take the scissors and trim it how you like. If you want you can also take other paper, cut it then put it somewhere on the card for another background or a shape.

# Decorating The Card

First you need to take any color of ribbon, cut it then put it on the edges of the card how you want. Then take the glue and put it on the card and some on the ribbon so it will stick together. Then you need to take the stickers and put them where you want on the card but don't put them in a big cluster or group, spread them out. Then take the stamp that you want, dip it in ink and put it on the card.

# Write In the Card

First you have to open the card whichever way you want. Then take a pencil or pen and write a nice note to the person. I would recommend you write in cursive. After sign your name below what you wrote. If you want you can also decorate the inside of the card as long as it is not blocking the writing.

# Conclusion

As you can see, making a homemade birthday card is really easy so anyone can make one. You will see that with a homemade birthday card you can brighten anyones birthday. So go ahead and make more homemade cards. Maybe one for christmas, valentines day, or even thanksgiving. Have fun and be creative!
